

CHILDHOOD EDUCATION INNOVATIONS

Childhood Education: Innovations provides unique, stimulating information about educational programs around the world. Articles explore solutions to specific challenges affecting schools, teachers, and learners, and showcase the most recent innovations being developed and implemented to address those challenges.

Articles planned for the September/October 2026 issue:

From Creators to Curators: Empowering Children Through Nature-Based Art Exhibitions

When children curate their own nature-based exhibitions, they develop creativity, leadership, collaboration, and a powerful sense of agency.

Cultivating Playfulness: A Stance for Inclusive and Engaging Learning

Embracing playfulness as a teaching mindset can transform classrooms into more joyful, inclusive, and engaging environments.

The Three-Generation Learning Model: Reimagining “Education for All”

The key to achieving “education for all” may be empowering children, parents, and grandparents to learn—and teach—together across generations.

A “Flexible Specific” for School Inclusion of Students With Autism Spectrum Disorder

How can schools move beyond simply placing students with autism in mainstream classrooms to creating truly inclusive learning environments?

The Stewardship of Sovereignty: Reimagining the 40-Year Horizon in Global Education

What if the greatest measure of educational success is whether they are empowered to lead, innovate, and inspire others for decades to come?

Leading Through Subversion: Early Childhood Educators in Ghana

Early childhood education leadership often depends on everyday acts of care, adaptability, and ethical decision-making.

How Schools Can Use AI to Build Curious, Ethical, and Critical Young Learners

Can artificial intelligence be a powerful tool for developing curiosity, ethical judgment, and critical thinking?

Using AI to Help Develop Cognition in Neurodivergent Children

AI can support the cognitive development of neurodivergent children by turning everyday moments into personalized, playful learning opportunities.

Outdoor Play in Norway: Lessons Learned at the Friluftsbarnhage

In Norway’s nature preschools, children build confidence, resilience, independence, and a love of nature through outdoor play and exploration.

Digital Pen Pals: Virtual Classroom Exchanges

Virtual classroom exchanges can help young children build language skills, cultural understanding, empathy, and confidence.

From Big Opinions to Brilliant Thinking: Sparking Critical Discussion With Kialo Edu

With Kialo Edu, educators can support thoughtful, evidence-based discussions that build critical thinking, empathy, and respectful dialogue.
